### IYPN's vision

We strongly believe in the extraordinary potential of **encounters based on common values** -for the greater good of the individual and society. We believe in the unique value of exchange of experience and of best practice among peers also across cultural divides. We are convinced that it has the power to **reveal immense hidden potential** that will help them to flourish in their personal and professional lives.

Our vision is to **shape a culture of networking among Christian young professionals** so that it would **help them to become the best version of themselves**. Furthermore, we strive to inspire many young professionals around the world to join our efforts and to attend or to organize such opportunities even themselves.
